

## May 2009 News Letter

Dear Client

I suspect that from the title you are now getting back on your chair, yes I know, a monthly news letter.

I am going to try and provide this, as suggested on a monthly basis, which will hopefully cover amendments and new functionality being included in Acumen, AcuFund and AcuReview. Some of which will be additional functionality and some will be cost related modules but at least you will be aware of them.

You will be pleased to hear that we have had several new clients join the Acumen ranks and we are now up to 41 individual clients

With this in mind, I would like to know if any of you have any issues that are currently outstanding, if so please reply, either with the issue or simply to have me phone you to go over the issue(s). Please note this is not an invitation for a wish list but simply to know any outstanding issues that already have been reported.

Attached are 4 word documents, which are the start of a new help system, these are procedure manuals, that will be incorporated into a new help system over the next few months, but in the mean time please have a look at these, we are currently working on General Ledger and Contacts these will be ready for next months new letter!!

Kind Regards  
Scott Falla
